

UV Oil and Fluid Dye

Part # 4923 (1 oz)

Part # 4924 (8 oz)

1. Each bottle contains 1 ounce of FJC Fluorescent dye for motor oil, gasoline, diesel, transmission, power steering, and hydraulics.
2. Pour the bottle into the system that is to be checked for leaks in the amount shown:
 - Motor oil: 1 oz per 4 to 5 quarts
 - Gasoline or diesel fuel: 1 oz to 5 gallons
 - Transmission: 1 oz per 4 quarts
 - Power steering: 1 oz per application
 - Hydraulic fluid: 1 oz to 1 gallon
3. Operate the system for 10 minutes and drive for 5 miles. Use a Black, UV, or Blue Light device to detect leak.

ALWAYS WEAR SAFETY GOGGLES

Caution: Maybe harmful if swallowed. May cause skin and eye irritation. Do not take internally. Consult physician if swallowed or irritation persists.

Warning: Dye will stain surfaces if spilled. Not for use in brake fluid systems.
